

She has just discovered **EXCEL**, the long-awaited successor to carbon paper. **EXCEL** is made of tough, resilient, DuPont Mylar Film and is protected by U.S. Patent No. 2,811,111.

Look at the inclosed sample—it is designed to save work, mess, and money. It is made differently and performs differently than ordinary carbon paper. The impact of the writer releases just the right amount of liquid ink and re-inks itself like a sponge.

throw away your flimsy fragile, short-life CARBON PAPER !!!

REPLACE IT FOREVER . . . WITH THIS FABULOUS NEW SCIENTIFIC BREAKTHROUGH THAT OUTLAST ORDINARY CARBON PAPER BY 20 TO 100 TIMES . . .

Aren't you dissatisfied with the performance of your present carbon paper? Do you use a sheet of carbon paper 3, 4 or 5 times, then throw it away because copies are no longer clear? Then you need sensational new Long-Life Copying Film. Use it like carbon paper - but there the similarity ends! Each sheet gives a minimum of 100 clear, sharp copies . . . and you can make as many as 15 copies at a time with it! Each package of 20 sheets is GUARANTEED to give at least 2,000 sharp, legible copies.

WHAT'S
SO
EXCITING?

WON'T CURL OR DOG-EAR!

Won't wrinkle, either, because of its resilient DuPont Mylar polyester film base!

WON'T RIP OR TEAR!

WON'T STRIKE THROUGH!

COPIES WON'T SMEAR!
